

# Starpath Dance Academy Programs

At Starpath Dance Academy we offer more than just a weekly class! We also offer exciting, specialized programs to help further the development of our students!

SHINE is a group of Starpath Dance Academy's student leaders who use their joy of dance to spread positivity in the community and raise funds for a dance scholarship. The members of the SHINE program create, plan and host events, contests and more.

## FUTURE LEADERS OF THE DANCE INDUSTRY

Starpath Dance Academy believes in empowering dancers to pursue their dance dreams. Our future leaders program allows dancers to learn more about the industry and how to run successful classes and studios.

## TEACHING ASSISTANTS

Starpath Dance Academy boasts an exciting and comprehensive Teaching Assistant program. Students apply and are admitted to the program in the late spring, train in the summer and assist in the dance classroom and at events throughout the season. These students have a unique opportunity to work with and learn from the Starpath staff, while enhancing leadership and teaching skills and growing in confidence.

shineBRIGHT offers full-day and half-day options for boys and girls in grades K-5 and 6-8, and each option develops children mentally, academically, physically, and socially through dance and other artistic and physical activities.

## Special Events

Starpath Dance Academy offers many special events throughout the year such as our Back to School Bash, Friendship Week Celebration and more! We also offer birthday parties!

## Child's Morning Out

Child's morning out offers children a fun and enriching experience for an extended morning session. The children participate in dance, crafts, games, and more!

## Special Needs Classes

At Starpath we believe everyone should have equal access to a quality dance education. We offer a specialized class for students with special needs with a trained special education teacher. We also believe in inclusion practices and invite dancers with special needs to join any of our classes.

The Professor Pirouette (TM) program follows N.C. Curriculum Standards and will focus on literacy, mathematics and science, and learning grade-specific concepts through dance - moving, reading, choreographing and more.

## Life Coaching Workshops

Starpath Dance Academy is excited to offer life coaching events for young dancers & teens. These workshops will include crafts, stories and activities to help dancers grow into their healthiest and happiest selves. Participants will learn invaluable tools they can use throughout their lives.

## SKILLS CLINICS

Skills Clinics offer dancers classes to focus on a specific skill they are interested in. These skills are taught through progressions and within the session, that leave dancers feeling confident in the progress they've made.
